EXECUTIVE SUMMARY

MBA graduate and former U.S. Navy Nuclear Submarine Officer with 8+ years of experience leading cross-functional operations and strategic execution. Proven ability to translate complex priorities into structured operating plans, drive stakeholder alignment across diverse teams, and deliver executive-ready recommendations in fast-changing environments.

PROFESSIONAL EXPERIENCE

NKA Bio - Strategy & Operations Intern — Baltimore, MD | Summer 2025

- Supported development of a Phase I SBIR proposal by synthesizing technical, financial, and operational inputs into executive-ready strategy materials.
- Assisted in Phase II clinical development planning, organizing project milestones, dependencies, and stakeholder inputs to support regulatory and funding readiness.
- Conducted operational analyses that identified process improvements and informed executive decision-making.

Navy Strategy Coordination Cell - Chief of Staff — Washington, DC | Oct 2021 – Apr 2024

- Led the end-to-end execution of a multimillion-dollar strategic war game from concept through delivery by coordinating stakeholders across multiple defense organizations and international partners while mentoring two junior officers.
- Partnered with senior military executives to translate strategic priorities into executable operating plans, align cross-functional stakeholders, and drive execution across multiple organizations.
- Managed a portfolio of strategic initiatives by developing executive dashboards, tracking milestones, managing risks, and ensuring timely execution across multiple workstreams.
- Produced executive communications, decision memoranda, and strategic recommendations that translated complex operational information into clear, actionable guidance for senior leadership.
- Designed and launched a Midshipmen Internship Program across Naval organizations in the Pentagon by coordinating stakeholders, mentoring participants, and establishing the program framework.
- Managed day-to-day organizational operations including executive scheduling, security verification, personnel onboarding, and high-priority meeting coordination for senior leadership.

Nuclear Submarine Officer USS Henry M Jackson — Bangor, WA | Jun 2018 – Oct 2021

- Led an 11-person engineering team responsible for nuclear propulsion operations, ensuring safe, reliable performance in high-risk environments.
- Directed complex maintenance and operational initiatives across engineering teams while ensuring execution against strict safety, regulatory, and performance standards.
- Authored operational reports and performance updates used by senior Navy leadership to assess submarine readiness and mission effectiveness.
- Managed mission-critical submarine diving operations by performing engineering calculations and risk assessments.
- Coordinated personnel and resources in time-critical situations, enabling disciplined execution of complex operations.

EDUCATION

Johns Hopkins University – Carey Business School Baltimore, MD

Master of Business Administration – Analytics, Leadership, and Innovation | May 2026

- President, Student Veterans of America – Led strategic outreach initiatives that increased membership by 40%.
- Innovative Field Project – Developed a Tableau workforce planning dashboard integrating HR and finance data across 56 regions for Siemens Healthineers, enabling operational planning and executive decision-making.

Arizona State University Tempe, AZ

Bachelor of Science, Physics – Summa Cum Laude | May 2014
